Method of Installing Windows Media Player and Adobe Flash Player

You must have Windows Media® Player 11 or later, or Adobe® Flash® Player 10 or later installed to insert and play back video.
Windows Media® Player : wmv, avi and the mpeg format, etc. can be played.
Adobe® Flash® Player   : swf format can be played.

1. Method of checking the version of Windows Media Player installed

Open "Windows Media Player" from the Start menu.
([Start] - [All Programs] - [Accessories] - [Entertainment] - [About Windows Media Player])
Select menu [Help] – [About Windows Media Player] on Windows Media Player.
*If "Windows Media Player" menu does not exist, Windows Media Player has not been installed.

Table1. Latest Windows Media Player version of operating system

Operating System	Windows Media Player version
Windows XP Service Pack 3	Windows Media Player 11
Windows Vista Service Pack 1	Windows Media Player 11 has been installed.
Windows 7	Windows Media Player 12 has been installed.
