

# Important Notification

## Firmware upgrade must be necessary for network cameras connecting to NX400K

When using following Panasonic network cameras connecting to NX400K, it must be necessary to upgrade the camera's firmware with the latest version described below. OTHERWISE THE NX400K CANNOT RECORD THE CAMERA VIDEO IMAGE.

Download the latest version of camera's firmware from Panasonic support web site below.

<http://security.panasonic.com/download/>

Contact your dealer for further information.
