

Recording Hours on SD memory Card (in H.264/H.265, Estimated)

*: About Groups

- Recording hours in H.264 (Group 5 and 6: in H.264/H.265) on SD memory card, are vary depends on models.
- Please find the group as follow, then refer to the tables on pages 2 through 7.

Groups	Applicable Models	Remarks
Group 1	WV-SW395A/SW395/SC385/SC384/SW155MA/SW155/SW152M/SW152/SW115 WV-SW175/SW172/ST165/ST162	
Group 2	WV-SW458MA/SW458/SF438/SF448E/SW158/SF138 WV-SW598/SW598A/SW397B/SC588A/SC387A	Please set "Maximum file size" displayed when "H.264" is selected as the compression method to "20 MB" in "SD memory card" tab of "Basic" page. Please update the firmware of the camera to the latest version if this is not displayed.
Group 3	WV-SFV6 series, WV-SFN6 series, WV-SFR6 series, WV-SPN6 series, WV-SPW6 series, WV-SFV3 series, WV-SFN3 series, WV-SFR3 series, WV-SPN3 series, WV-SPW3 series, WV-SFV5 series, WV-SFN5 series, WV-SFR5 series, WV-SPN5 series, WV-SPW5 series, WV-SFV1 series, WV-SFN1 series, WV-SBV1 series	
Group 4	WV-SFV4 series, WV-SFN4 series, WV-SFV7 series, WV-SPV7 series	
Group 5	WV-S15xx series, WV-S11xx series, WV-S25xx series, WV-S22xx series, WV-S21xx series, WV-X65xx series, WV-S65xx series, WV-S61xx series, WV-X45xx series, WV-X41xx series, WV-S45xx series, WV-S41xx series, WV-X85xx series, WV-S85xx series, WV-X25xx series, WV-X22xx series, WV-X15xx series	
Group 6	WV-S31xx series, WV-S35xx series WV-U11xx series, WV-U15xx series, WV-U21xx series, WV-U25xx series	microSD memory card

Recording Hours on SD memory Card (in H.264, Estimated)

* Estimated Recording Hours for the Cameras of Group 1

- We recommend you to backup data promptly if you need to save for long term due to recording data on SD memory cards may be lost.
- SD memory cards may be damaged by power off during accessing the SD memory card before the upper limit of the number of rewriting times. The abnormality of the SD memory card is notified by e-mail/alarm notification/LED etc. However, when these can not be received and confirmed, please periodically check the operation.
- Recording hours and Bandwidth are vary depending on the subject.

- Please use UHS-I compatible card.
- In the case of a model that can select multiple recording streams, when H.264 recording setting is made for both recording stream 1 and recording stream 2, apply the set bit rates to the table in total.
- When inserting two SD memory cards into a model with two SD memory card slots;
 - Single recording: Calculate the number of hours/days that can be recorded by SD1/SD2 and add them.
 - Dual recording: Please refer to the table on the assumption that only the SD memory card with the smaller capacity is inserted.

- **Apply the sum to the table for each bit rate you set if you set H.264/H.265 recording settings for both Recording Streams 1 and 2.**

Recording Hours on SD memory Card (in H.264/H.265, Estimated)

* The "SD memory card" for the cameras of Group 6 means "microSD memory card".

* Estimated Recording Hours for the Cameras of Group 6

- We recommend you to backup data promptly if you need to save for long term due to recording data on SD memory cards may be lost.
- SD memory cards may be damaged by power off during accessing the SD memory card before the upper limit of the number of rewriting times. The abnormality of the SD memory card is notified by e-mail/alarm notification/LED etc. However, when these can not be received and confirmed, please periodically check the operation.
- Recording hours and Bandwidth are vary depending on the subject.

- Please use UHS-I compatible card.
- **Apply the sum to the table for each bit rate you set if you set H.264/H.265 recording settings for both Recording Streams 1 and 2.**

Version history

Apr. 9, 2018	First edition
Oct. 16, 2018	Added WV-X85xx series and WV-S85xx series cameras in Group 5.
Dec. 12, 2018	Fixed some values of Estimated Frame rate at each Bandwidth in Group 5.
Apr. 9, 2019	Added Group 6.
Jun. 5, 2020	Added WV-X15xx series, WV-X22xx series and WV-X25xx series cameras in Group 5. Added WV-U11xx series, WV-U15xx series, WV-U21xx series and WV-U25xx series cameras in Group 6.
April. 6, 2021	Added 512GB SD memory card column in Group 5. Added 128GB and 256GB SD memory card column in Group 6.
May 6, 2021	Deleted "Estimated Frame rate at each Bandwidth".
